IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.

- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	**Eye or muscle twitching**	**Loss of awareness**
Altered vision	**Involuntary movements**	**Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

Introduction

This is the story of an ordinary little boy named Charlie Bucket. He is not faster, or stronger, or more clever than other children. Indeed, Charlie is barely strong enough to stand in the wind. His family is not rich, or powerful, or well-connected. In fact, they barely have enough to eat. Yet Charlie Bucket is the luckiest boy in the entire world. He just doesn't know it yet.

Unseen for years, Willy Wonka, the world's greatest candy maker, has decided to invite five (and only five) children into his fantastic chocolate factory. Five Golden Tickets have been hidden beneath the wrappers of five ordinary Wonka bars – and the lucky children who find them are to be taken on a personal tour of the factory by Mr. Wonka himself. But the luckiest child of them all will receive an extra special prize, beyond anything you could ever imagine.

Charlie and Company

Charlie Bucket

This is the story of an ordinary little boy named Charlie Bucket. He is not faster, stronger, or cleverer than any other child. His family is not rich, or powerful, or well-connected. But for what Charlie lacks in strength or riches, he more than makes up with heart and spirit. He is never afraid to put himself in harm's way in order to help somebody else out. When he finds himself in impossible situations, he never gives up.

The player controls Charlie throughout the game.

Willy Wonka

Mr. Wonka is an extraordinary man who owns the most fantastic chocolate factory. For some mysterious reason he has decided to hold a contest and randomly insert five Golden Tickets into his Wonka bars. Children lucky enough to find the Golden Tickets are invited to visit and explore his factory. Every winning child will be escorted home by a procession of large trucks, each one filled with all the chocolate one could ever eat! However, one of the children will receive an extra prize beyond anyone's wildest imagination!

Mr. Wonka will help Charlie figure out what he needs to do.

Grandpa Joe

Grandpa Joe is 96 years old, yet still approaches life with childlike zeal and optimism. He used to work for Willy Wonka until Wonka decided to close the factory doors. He returns to the factory to accompany Charlie on the tour.

Grandpa Joe will appear from time to time to give Charlie hints and tips.

Augustus Gloop

Augustus is a gluttonous boy. He ate so many Wonka bars a day, it was almost impossible for him not to find a Golden Ticket.

Veruca Salt

Veruca is a spoiled girl who always gets what she wants. Her father converted his entire peanut packing operation and had all of his workers open thousands of Wonka bars to look for the Golden Ticket. Naturally, after Veruca gets the Golden Ticket, she wants another pony.

Violet Beauregarde

Violet is a super-competitive girl who sees winning as the most important thing in life. She is even a junior world-champion gum chewer! But when she heard about Willy Wonka's contest and the special prize, she decided to switch to candy bars (until she won a Golden Ticket, at least!).

Mike Teavee

Mike is smarter than the average kid. The trouble is, he *KNOWS* he's smarter than everyone and sneers at people he thinks are beneath him. Mike found his Golden Ticket by tracking manufacturing dates, the weather, and the stock market.

Oompa-Loompas

Oompa-Loompas are the workers in Willy Wonka's Chocolate Factory, imported directly from Loompaland.

Charlie's World

In Town

One afternoon, Charlie's eyes are caught by a piece of paper lying in the gutter. It's a ten dollar bill! He looks around to see if anybody has just dropped it. No? Then it's his! Now, if he can only catch it as it flutters away in the wind, he'll be able to buy himself something to eat and silence his grumbling belly!

The Chocolate Room

Charlie is invited along with four other children to tour Wonka's Chocolate Room. Charlie will discover Oompa-Loompas and other strange and wonderful things in the Chocolate Room.

The Chocolate Riverbank

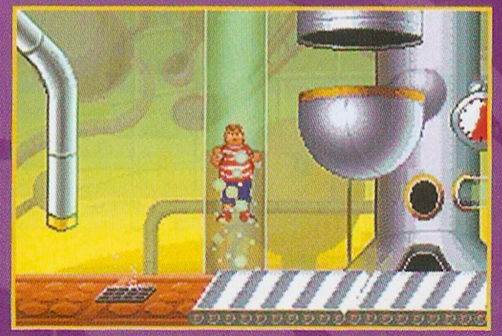
Augustus has fallen into the chocolate river! Charlie must chase him down before it's too late!

The Wriggle-Sweets Room

In order to get to the Fudge Room to save Augustus, Charlie must pass through the Wriggle-Sweets Room. Find four mechanical parts to fix the Wriggle-Sweets machine on your way!

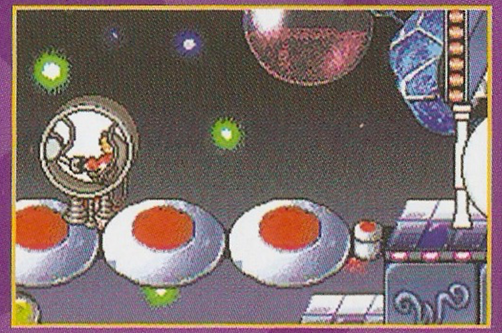
The Fudge Room

Oh no! Augustus is about to be sucked into the fudge machine! Charlie must overload the fudge machine and rescue Augustus.



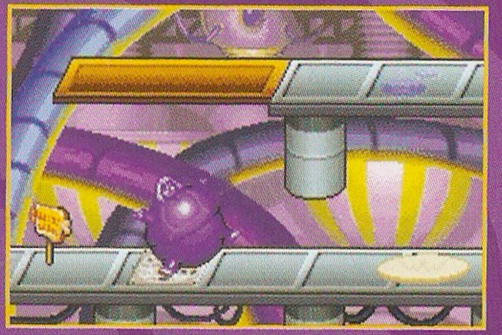
The Inventing Room

Violet has accidentally broken the Jelly Bean machine on the way out of the Inventing Room. Charlie must track down the spare parts to get it working again!



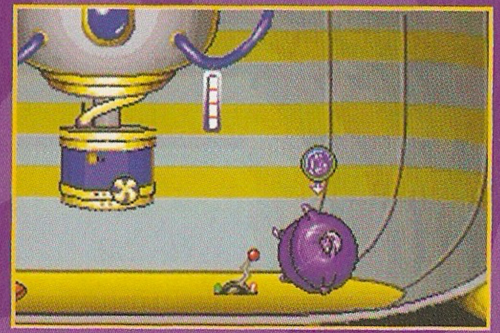
To the Juicing Room

Overcome obstacles and roll Violet toward the Juicing Room.



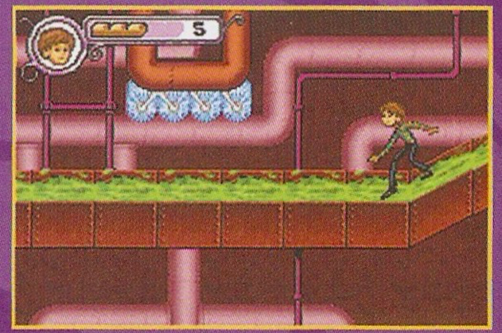
The Juicing Room

Violet must be juiced in order to return to normal size. Activate the Juicing Machine!



Nut Room Garbage Chute

Veruca has fallen down the garbage chute and is headed for the incinerator. Charlie must get to the bottom of the garbage chute to save her.

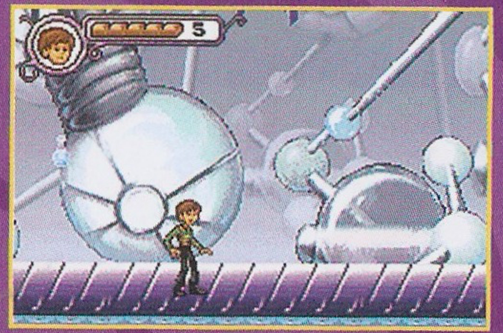


The Garbage Pipe

Charlie has finally caught up with Veruca in the main Garbage Pipe. Now he needs to help her escape from the garbage collection machine.

The Fizzy Lifting Room

Charlie walks into the Fizzy Lifting Room and finds a drink that gives you a truly uplifting experience–a Fizzy Lifting Drink! In the meantime, Mike has reprogrammed the Exploding Candy machine and broken it in the process. Charlie must fix the Exploding Candy machine before joining up with Mike Teavee in the Television Room.



The Television Room

Mike had wanted to be the first person to be sent by television. Now he's stuck inside the Television Chocolate System Network, and Charlie will have to use all the tricks he's learned so far to fix things and find out where Mike has gone.

Television Maze

It turns out that Mike has landed in a video game. Now Mike is trapped and Charlie must play the game to get him out.

Over the Town

The Great Glass Elevator has successfully broken through the roof of the chocolate factory and is flying high above the town. Charlie now needs to go to his house, where he can tell his parents and other grandparents about his adventures.

Bonus Mini-Games

Lift-A-Loompa

Use the fudge dipper to fish Oompa-Loompas out of a vat of fudge.

Blueberry Jam

Use the trampoline to bounce the Oompa-Loompas to the Juicing Room.

Nut Room Chaos

Toss the nuts to squirrels and avoid the Scrubberbots.

Chocolate Broadcast

Transmit chocolate treats via Television Chocolate by aiming your chocolate to land next to two others of the same kind.

Shipping and Receiving

Help Oompa-Loompas send out candy boxes in the Shipping and Receiving department.
